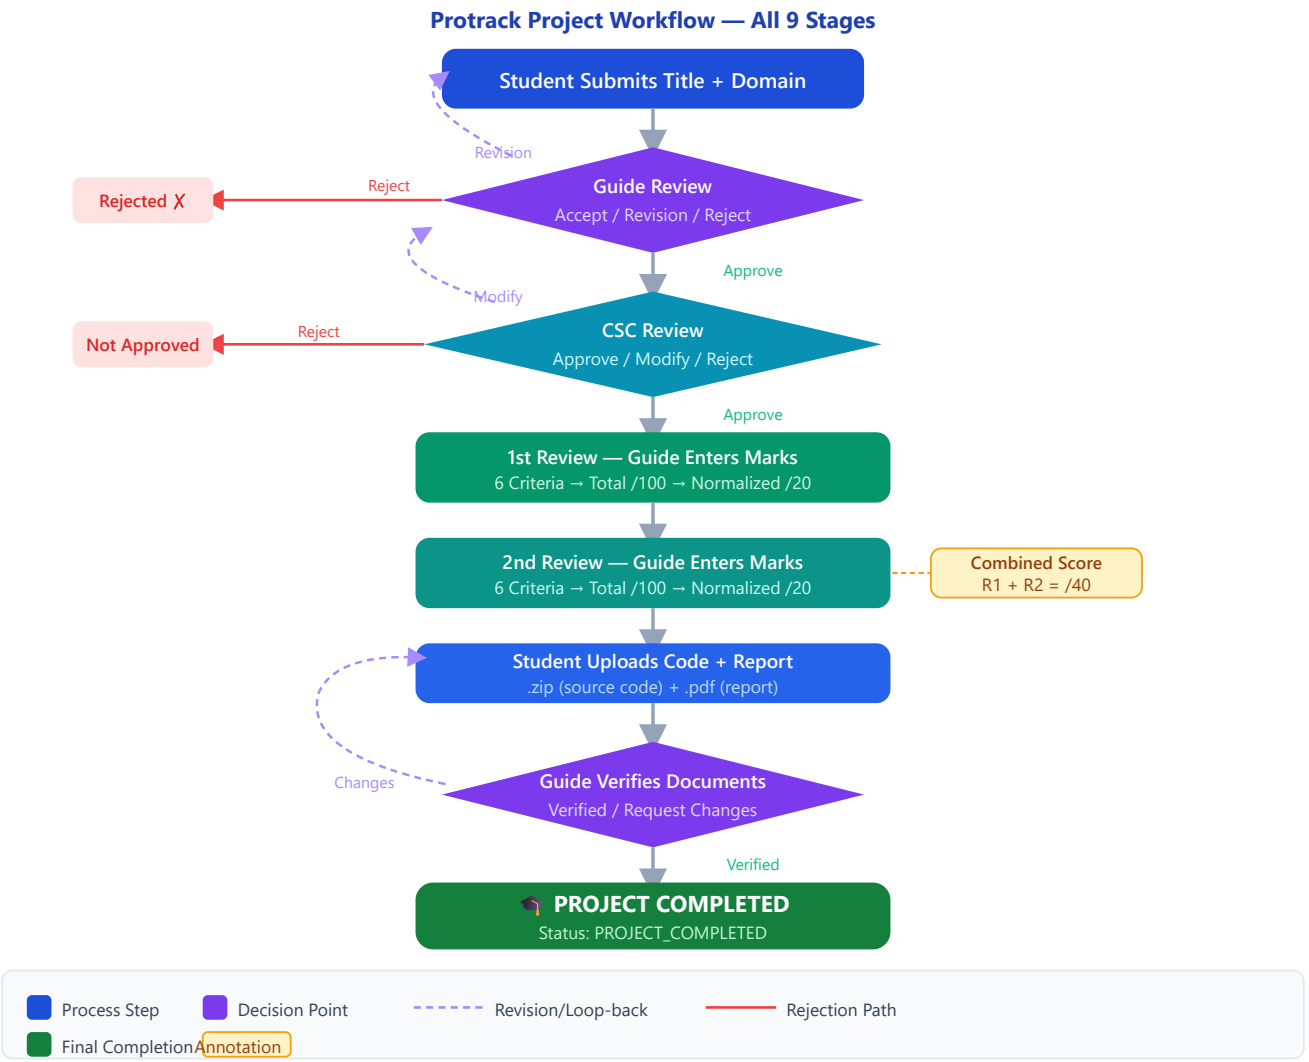
Guide marks project complete	✓	✓ Mark Project Complete
Final status shown to student	✓	✓ PROJECT_COMPLETED badge

Workflow Flow — Visual Diagram (Protrack)



Workflow Flow — Text Summary (Side by Side)

```
ANNA UNIVERSITY PORTAL:
        Register → Submit Title → Guide Review → CSC Review → 1st Review → 2nd Review → Submit Docs → Viva-Voce

        PROTRACK (OUR APP):
        Submit Title → Guide (Approve / Accept After Revision / Reject)
```

```
        → CSC (Approve / Scope Modification / Not Approved)
        → 1st Review Marks (6 criteria, total /20)
        → 2nd Review Marks (6 criteria, total /20) [Combined = /40]
        → Student Uploads Code + Report
        → Guide Verifies Documents
        → PROJECT COMPLETED 🎓
```

Extra Features in Protrack (Not in Original Portal)

Feature	Description
Live Workflow Progress Bar	7-step visual pipeline on student dashboard showing exact current stage
Live Score Preview	Mark-entry form shows real-time normalized score as guide types marks
Kanban Board for Guide	Staff dashboard uses a visual Kanban card layout, not just a plain list
CSC Badge Counter	Admin CSC Review tab shows a red badge with pending proposal count
Activity Timeline	Full chronological history of all actions with timestamps for every project
Status Gating	File uploads and actions are blocked unless the project is at the correct stage
Combined Review Score	Student dashboard shows both Review 1 and Review 2 scores and the combined /40 total

Features in Original Portal Not Yet in Protrack

Feature	Priority	Notes
Captcha on login page	Low	Can be added with any CAPTCHA library
Email notifications on status change	Medium	Students receive email when guide/CSC acts
OTP / forgot password reset	Medium	Can be restored if needed
MCA schedule PDF download	Low	Static file download link

Summary: Protrack successfully implements all 9 core workflow stages of the Anna University CDE Project Portal, with significant UX and usability improvements over the original government portal. The complete pipeline — from Title Submission through two review cycles, final document upload, and project completion — has been implemented and end-to-end tested.
